

Deluxe 9 Bottle Set of Multiplying Bottles For the Family or Kid Show Performer

The performer displays 2 red painted tubes,
a bottle of Rootin Tootin Root Beer, and a glass.

The bottles and glass magically change places
with sucker gags thrown in.

More and more bottles keep appearing until and the end of the
routine, the magician is left with nine bottles on the table and the
audience laughing their heads off.

There is a great audience participation gag included in the
instructions that make the

"Rootin Tootin " portion really funny!

Use any glass that will fit in the tube
and you are ready to go.

This has been a great trick but never for family audiences.

Now available in this family friendly version.

Comes complete with the two painted tubes, the nine spun
aluminum bottles with custom vinyl labels, and the instructions.

No glasses are supplied.
