

What's hotter than pirates or wizards in a kid show?

NOTHING!

Well, why not do something about it with Kandu's new

STORYTIME TRANSPO

Imagine the old classic "passe passe" bottles effect brought out in a kid friendly routine using wizard potion or pirate ginger ale.

It's a great comedy effect where the bottle and the picture of the character repeatedly change places under the tubes. You can even show a spare bottle by mistake, remove it and still do the magic!

Make up your own story of how your Captain Jack Sparrow's (oops, it's Capt. Jack Robin his cousin) biggest treasure is his Pirate Ginger Ale.

And then show how he hides it so his mates can't find it. When they think they know where the ginger ale is, the Capt. shows up instead.

If you purchase the Wizard Potion version, you can explain that the potion has the magical powers and you can show how the wizard and his potion can change places magically.

Use your imagination to come up with your enhanced story.

Available in Wizard or Pirate designs.

Each set comes with 3 spun aluminum bottles, 2 nesting outer tubes and 2 free standing figures of the wizard or pirate.

Available only through kandumagic.com
